Start your digital transformation Today!

GREY RHINO 

A new era has started: Grey Rhino Crew Module

Digital logistics is driven by the need of new generation web-based logistics applications that enable collaboration and optimization, leveraging a central logistics information backbone that provides fully digital administration, allowing complete visibility, LIVE.

Keep IT Simple. When spreadsheets are no longer sufficient and micromanaging your business takes too much of your time. We implement the right FIT for your organization.

Are you also struggling to keep track of your Crew Related Services, Route / Shift Planning whilst keeping your customers informed? Take control of the whole spectrum: Visa-, Transport and Hotel Arrangements.

Our **Grey Rhino Crew module** allows you to effectively keep track of crew related services. Your process is leading in this cloud based tool. It's key strength lies in route planning, live status notifications and track & trace portals. With power analytics, track your key business metrics, see longtime trends and identify outliers.

CREW

ROUTE PLANNING

Transport Requests can be combined for operational efficiency. Route planning organizes the most optimal route per vehicle.

SHIFT PLANNING

Capacity planning ensures the availability of Man and Machine for the requested operations. Maximize the use of your vehicles by scheduling various shifts per vehicle

NOTIFICATIONS

Engage with your client, team or partners by enabling live notifications on configurable milestones and send out daily summary reports.

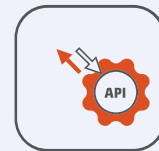

CUSTOMER TRACK & TRACE PORTALS

Involve your clients and partners with an Online portal. Meet market demands by a Central logistics information, allowing complete visibility, LIVE!

TASK DRIVEN MOBILE TASKS

The ground staff receives and completes their tasks live using our mobile app and can submit exceptions back to the control room. Distributed QR Codes may also be used for easy task completion.

INTEGRATIONS

Our solution is integrated with Zoho CRM, Zoho Workdrive and our Grey Rhino ERP File Administration App.

MULTI-PLATFORM

Whether you're using a laptop, tablet or mobile phone.. all our solutions are created with multi platform in mind.

POWERFULL KPI & ANALYTICS

Define and track your KPI's and in depth reporting using Zoho Analytics. Transform data into insights and actions in minutes.
